

3M AUDITORIUM

Minnesota History: Building A Legacy

Report to the Governor and the Legislature on Funding
for History Programs and Projects Supported by the
Legacy Amendment's Arts and Cultural Heritage Fund

CLEAN
WATER
LAND &
LEGACY
AMENDMENT

Letter from MNHS CEO and Director

In 2018, it will be 10 years since Minnesota voters passed a constitutional amendment to create the Arts and Cultural Heritage Fund (ACHF). This simple 3/8-cent sales tax has had a deep and far-reaching impact on our state.

During this time, the Minnesota Historical Society is proud to have administered more than \$45 million in historical and cultural grants, totalling 2,224 grants to 812 organizations in all 87 counties. This funding source has helped Minnesotans invest in their cultural heritage, creating a legacy for future generations and demonstrating that history matters.

ACHF has supported a wide range of projects, from restoring historic buildings to providing microfilm readers and funding exhibits at county historical societies. As we look back over the years, a few trends emerge:

- **Legacy funding supports the restoration and preservation of historic properties throughout Minnesota.** Early ACHF grants funded the preservation of sites like Duluth's St. Louis County Jail and the Litchfield Opera House. In 2017, preservation projects included New Ulm's Hermann Monument and the Wasioja Civil War Recruiting Station in Mantorville.
- **Legacy dollars fund groundbreaking Minnesota research.** Historians, archaeologists, and other professionals have been able to delve into new and exciting areas of our state's history. As an example, Maritime Heritage Minnesota explores archaeological and cultural resources beneath Minnesota's waters and has conducted numerous Legacy-funded surveys over the years. Their work has led to the reestablishment of the discipline of underwater archaeology in Minnesota. In 2017, Maritime Heritage Minnesota received funding to continue assessments of several suburban lakes and research the state's history of small watercrafts.
- **ACHF helps Minnesota's historic properties receive national recognition.** ACHF has supported efforts to nominate properties to the National Register of Historic Places (NRHP) by helping organizations hire qualified historians to conduct property research. Since 2009, more than 20 historic properties have been added to the NRHP, thanks to Legacy-funded research. In this report, you can read about the New Deal-era Olcott Park Electric Fountain and Rock Garden, which earned NRHP status in June 2017.

While we celebrate the tremendous success of the ACHF, it's important to note the great need that remains. MNHS has awarded more than \$45 million in grants since July 2009, but we received \$124 million in grant requests in that time period. ACHF has become a vital part of our investment in our cultural heritage and will become more important as historical organizations battle tightening budgets.

Communities across the state are grateful to the voters of Minnesota for passing this groundbreaking constitutional amendment, and it will be fascinating to see what kinds of investments local historical organizations will make with this funding in the next 10 years. The Arts and Cultural Heritage Fund has become a critical part of our state's future and how we remember our past.

Introduction

On November 4, 2008, Minnesota voters approved the Clean Water, Land and Legacy Amendment to preserve and enhance some of the most important elements of our state. This amendment to the Minnesota Constitution, often referred to as the “Legacy Amendment,” created four funds, one of which is the Arts and Cultural Heritage Fund (ACHF).

The Legacy Amendment mandates that a portion of the ACHF be used “to preserve Minnesota’s history and cultural heritage” (Minnesota Constitution, Article XI, Sec. 15). Each January, the Minnesota Historical Society (MNHS) is required to submit an annual report to the governor and legislature detailing expenditures it has made from the ACHF.

This report details all ACHF grants awarded in CY17 and projects and programs funded through MNHS for FY18.

ACHF history projects are benefiting Minnesotans statewide by:

- Preserving our state’s most valuable historical and cultural resources for future generations
- Sharing our state’s stories and treasured resources with ever-growing audiences including students, teachers, scholars, researchers, genealogists and the general public
- Connecting Minnesotans of all ages to each other and to history—history that is becoming more accessible than ever before

Appropriations

In 2017, the legislature appropriated \$28.1 million from the ACHF to MNHS for the two-year period July 2017-June 2019. That appropriation breaks down to \$11.815 million for fiscal year 2018 and \$16.305 million for fiscal year 2019.

The legislature divided the fiscal year 2018-2019 appropriation to MNHS into the following six categories:

Category	FY18 Appropriation	FY19 Appropriation
Statewide Historical and Cultural Heritage Grants	\$4,500,000	\$6,500,000
Statewide History Programs	\$4,055,000	\$6,945,000
Statewide History Partnerships	\$2,000,000	\$2,000,000
Statewide Survey of Historical and Archaeological Sites	\$400,000	\$400,000
Minnesota Digital Library	\$300,000	\$300,000
Additional Projects	\$560,000	\$160,000
Total	\$11,815,000	\$16,305,000

2,224 grants have been awarded to 812 organizations across Minnesota through the Minnesota Historical and Cultural Heritage Grants Program

SINCE JULY 1, 2009, Legacy history funds have supported grants in all 87 Minnesota counties.

Historic Resources Advisory Committee (HRAC)

Legislation specifies that the HRAC, a volunteer citizen panel that guides decisions for the ACHF-funded Minnesota Historical and Cultural Heritage Grants Program, has balanced statewide membership and includes representatives of local, county, and statewide historic and cultural organizations and programs.

It further requires that the HRAC shall include, but is not limited to, members representing the interests of historic preservation, local history, archaeology, archival programs, and other cultural programs related to the history of Minnesota.

The HRAC consists of 13 members serving two-year terms and two ex-officio members. They represent a variety of disciplines and are from diverse areas of the state. The committee roster for 2017:

Kristi Link Fernholz, Appleton (Chair)

- Senior planner, Upper Minnesota Valley Regional Development Commission
- Active with Minnesota Valley National Scenic Byway
- Qualified in grants management, regional government, graphic arts, and interpretation

Eric Ahlness, Wayzata

- Manager at Cargill
- Member of MNHS Executive Council
- Qualified in human relations and management services

Milissa Brooks-Ojibway, Duluth

- Collections manager, Glensheen, the Historic Congdon Estate
- Associate of Arts degree in liberal arts, Fond du Lac Tribal & Community College
- Qualified in grant writing and implementing collection policies and object care

Mike Brubaker, Becker

- Executive director, Sherburne History Center
- M.A., Utah State University
- Qualified in local history, genealogy, archives, exhibits, and collections management

Mark Edevold, Bagley

- Former executive director, Beltrami County Historical Society and former mayor of Bagley
- M.A. in anthropology
- Qualified in archaeology, construction, facility management

Michael Farnell, Rochester

- Member of MNHS Executive Council
- Emeritus professor of surgery, Mayo Clinic
- Qualified in governance

Ann Grandy, Glenwood

- Collections manager, Pope County Historical Society
- Master of Liberal Arts in history, Harvard Extension School
- Qualified in collection management, exhibits, research

Sara M. Hanson, White Bear Lake

- Executive director, White Bear Lake Historical Society
- M.A. in public history, St. Cloud State University
- Qualified in local history, research, and collections

Ginny Lackovic, Minneapolis

- Registered architect, HGA Architects and Engineers
- Involved in restoration work on the Minnesota State Capitol, St. Paul Union Depot, and Pantages Theatre in Minneapolis
- Qualified in historic architecture

Andrea LaVasseur, Bemidji

- U.S. Forest Service program manager, retired
- M.A. in anthropology
- Qualified in anthropology, project management, federal and tribal government

Robert Mack, Minneapolis

- 45 years of practicing preservation architecture, teaching preservation, service with preservation organizations, and technical writing on preservation subjects
- Author of the National Park Service's Preservation Briefs #1 and 2
- Adjunct professor in the School of Architecture and Department of Landscape Architecture at University of Minnesota
- Qualified in historic preservation

Kathryn Ohland, St. Paul

- Architectural historian
- M.S. in architecture, preservation and conservation, University of Minnesota
- Qualified in historic preservation

Michael Worcester, Cokato

- Director, Cokato Historical Museum and Akerlund Studio
- Former board member of Minnesota Alliance of Local History Museums
- Qualified in local history, project management, museum collections care, and management

Ex Officio Members:

Phyllis Rawls Goff

President, MNHS Executive Council

Daniel J. Schmechel

Treasurer, MNHS Executive Council

The Minnesota Historical Society Executive Council

All grant recommendations for the Minnesota Historical and Cultural Heritage Grants Program are reviewed and approved by the Minnesota Historical Society governing board, the Executive Council.

Below is the list of members who served in calendar year 2017:

Officers:

Phyllis Rawls Goff, President
William D. Green, Vice President
D. Stephen Elliott, Secretary
Daniel J. Schmechel, Treasurer

Members of the Executive Council:

Cawo Abdi	Jean M. Larson
Eric Ahlness	Kirby M. Law (deceased)
Dr. Ford W. Bell	Monica Little
Suzanne Blue	Dr. Michael Farnell
Kurt V. BlueDog	Charles Mahar
Barbara Burwell	Dean M. Nelson
Brenda J. Child	Peter R. Reis
Grant W. Davis	Judge Peter M. Reyes Jr.
Judge Michael J. Davis	William R. Stoeri
M. Mitchell Davis	Bo Thao-Urabe
Thomas M. Forsythe	Ben Vander Kooi
David R. Hakensen	Eleanor C. Winston
MayKao Y. Hang	Warren J. Zaccaro
Dennis Lamkin	

Ex Officio Members:

Mark Dayton, Governor
Tina Smith, Lieutenant Governor
Steve Simon, Secretary of State
Lori Swanson, Attorney General
Rebecca Otto, State Auditor

Minnesota History Coalition

The Minnesota History Coalition is an advisory group composed of representatives of various history organizations in Minnesota. Using public input and members' expertise, the History Coalition developed recommendations for the legislature on how the FY18-19 ACHF appropriation for history projects and programs could best serve Minnesotans.

Minnesota History Coalition Members:

Council for Minnesota Archaeology
Minnesota Alliance of Local History Museums
Minnesota Archaeological Society
Minnesota Association of Museums
Minnesota Digital Library
Minnesota Genealogical Society
Minnesota Historical Society
Minnesota History Advocates for Research
Minnesota State Historical Records Advisory Board
Minnesota's Historic Northwest
Northern Bedrock Historic Preservation Corps
Preservation Alliance of Minnesota

Accountability

The Minnesota Legislature has reiterated the mandate that every project and program supported by the Arts and Cultural Heritage Fund report "actual measurable outcomes, and a plan for measuring and evaluating the results."

MNHS staff and partners are now strongly positioned to ensure that ACHF projects and programs use best practices, current scholarship, and when appropriate, incorporate state-of-the-art technology for demonstrating measurable outcomes. During FY18-19, MNHS continued to evaluate the impact of ACHF projects and programs to ensure that they demonstrate measurable outcomes as well as economic value for citizens. These results will be shared on a website explained below.

Transparency

The Minnesota Historical Society has an obligation to the citizens of Minnesota to ensure that ACHF funds entrusted to our care are invested in ways that are transparent and will produce the greatest measurable impact on lives, enabling our state to thrive.

To meet this goal, MNHS has assisted in the building of websites that inform the public about all ACHF initiatives funded through MNHS.

Minnesota's Legacy, www.legacy.leg.mn, was created by the Legislative Coordinating Commission and contains information on all Legacy-funded projects.

Through the end of the biennium, MNHS will continue to post the most current information about history-related ACHF initiatives ensuring transparency and responsible stewardship of the funds.

Arts and Cultural Heritage Fund History Appropriations Language

Session Law Reference: Laws of Minnesota 2017, chapter 91, article 4, section 2, subdivision 4

Subd. 4. Minnesota Historical Society, FY2018: \$11,815,000, FY2019: \$16,305,000

(a) These amounts are appropriated to the governing board of the Minnesota Historical Society to preserve and enhance access to Minnesota's history and its cultural and historical resources. Grant agreements entered into by the Minnesota Historical Society and other recipients of appropriations in this subdivision must ensure that these funds are used to supplement and not substitute for traditional sources of funding. Funds directly appropriated to the Minnesota Historical Society must be used to supplement and not substitute for traditional sources of funding. Notwithstanding Minnesota Statutes, section 16A.28, for historic preservation projects that improve historic structures, the amounts are available until June 30, 2021. The Minnesota Historical Society or grant recipients of the Minnesota Historical Society using arts and cultural heritage funds under this subdivision must give consideration to Conservation Corps Minnesota and Northern Bedrock Historic Preservation Corps, or an organization carrying out similar work, for projects with the potential to need historic preservation services.

(b) Historical Grants and Programs

(1) Statewide Historic and Cultural Grants

\$4,500,000 the first year and \$6,500,000 the second year are for history programs and projects operated or conducted by or through local, county, regional, or other historical or cultural organizations or for activities to preserve significant historic and cultural resources. Funds are to be distributed through a competitive grant process. The Minnesota Historical Society must administer these funds using established grant mechanisms, with assistance from the advisory committee created under Laws 2009, chapter 172, article 4, section 2, subdivision 4, paragraph (b), item (ii).

(2) Statewide History Programs

\$4,055,000 the first year and \$6,945,000 the second year are for programs and purposes related to the historical and cultural heritage of the state of Minnesota conducted by the Minnesota Historical Society.

(3) History Partnerships

\$2,000,000 each year is for partnerships involving multiple organizations, which may include the Minnesota Historical Society, to preserve and enhance access to Minnesota's history and cultural heritage in all regions of the state.

(4) Statewide Survey of Historical and Archaeological Sites

\$400,000 the first year and \$400,000 the second year are for a contract or contracts to be awarded on a competitive basis to conduct statewide surveys of Minnesota's sites of historical, archaeological, and cultural significance. Results of the surveys must be published in a searchable form and available to the public free of cost. The Minnesota Historical Society, the Office of the

State Archaeologist, and the Indian Affairs Council must each appoint a representative to an oversight board to select contractors and direct the conduct of the surveys. The oversight board must consult with the Departments of Transportation and Natural Resources.

(5) Digital Library

\$300,000 the first year and \$300,000 the second year are for a digital library project to preserve, digitize, and share Minnesota images, documents, and historical materials. The Minnesota Historical Society must cooperate with the Minitex interlibrary loan system and must jointly share this appropriation for these purposes.

(6) Grants

\$80,000 each year is for a grant to the board of directors of the Carver County Historical Society to restore the historic Andrew Peterson farm in Waconia.

\$80,000 each year is for a grant to the city of Woodbury to work in collaboration with the Woodbury Barn Heritage Commission to restore the Miller Barn and historical programming at the Miller Barn in Woodbury.

\$100,000 the first year is to restore the stained glass in the historic Fort Snelling Memorial Chapel in collaboration with the Department of Natural Resources. The historical society may work in collaboration with the Fort Snelling Memorial Chapel Foundation.

\$250,000 the first year is for a grant to the Fairmont Opera House to restore and renovate the historic Fairmont Opera House.

\$50,000 the first year is for a grant to the Litchfield Opera House to restore and renovate the historic Litchfield Opera House.

Photos of the Olcott Park Fountain and Rock Garden in the 1930s and today

Virginia's Olcott Park Fountain and Rock Garden Named to National Register of Historic Places

The National Park Service listed the Olcott Park Electric Fountain and Rock Garden to the National Register of Historic Places on June 5, 2017, confirming what local Virginia, Minnesota residents have known for years: that this place is special. Legacy funds supported hiring researchers to craft a National Register of Historic Places nomination and to create a conservation assessment and long-range plan for the site's preservation.

In 1937, the park board of the city of Virginia, working with the Works Progress Administration (WPA)—a New Deal-era program designed to get young men working during the Great Depression—added a major attraction to Olcott Park: a fountain and pool within a sunken rock garden and an observation deck.

The fountain served as a centerpiece with multicolor lights shining on changing streams of water. The fountain's mechanism was built by General Electric, which showcased the technology at the Century of Progress Exposition held on Chicago's lakefront during the summers of 1933 and 1934.

According to the National Register listing, the Olcott Park Electric Fountain and Rock Garden is significant as an example of a local partnership with the WPA to “provide an unusual public space, which made a significant and lasting contribution to the social life of Virginia.” Its engineering is also notable as an example of “an innovative, electrically powered, colored-light fountain produced during the 1930s by a nationally recognized manufacturer.”

The city operated the fountain until 2013 when leakage issues made water circulation to the pumps difficult. In addition, replacement parts for the fountain's mechanism were no longer available.

Plans are now underway by the City of Virginia and the Olcott Park Fountain Restoration Committee to restore the fountain to its original working order using new equipment and repair the observation deck and rock garden.

The *WWI America* exhibit ran at the Minnesota History Center from April 8-Nov. 11, 2017

Legacy-Funded Projects Commemorate 100th Anniversary of US Entry into WWI

2017 marked the 100th anniversary of the United States' entry into World War I, and in recent years, ACHF funds have supported several projects exploring WWI history across Minnesota.

In Marshall, the Society for the Study of Local and Regional History at Southwest Minnesota State University explored the role of local women during WWI.

Through primary and secondary sources, researchers uncovered new information about local women's WWI experiences, including new job opportunities working in lumberyards and railroads as local men joined the military. ACHF funds supported research, creation of a manuscript, and publication.

Several county-level historical societies, including Brown County, Kandiyohi County, McLeod County, and Dakota County used ACHF support to help fund research and installation of new exhibits examining World War I using artifacts, stories and more from their communities.

Brown County Historical Society (BCHS) opened the exhibit *Loyalty and Dissent: Brown County and the World War I* in April 2017. The exhibit shares stories of men and women who served in the military and on the home front.

BCHS also explores darker issues, like anti-German sentiment during the war. In 1917 when the United States declared war on Germany, more than half of Brown County citizens were first- or second-generation German, and many were registered as enemy aliens, considered disloyal to the United States.

With the support of ACHF funds, in April 2017, the Minnesota History Center opened the exhibit *WWI America*, which was on view through Nov. 11, Veteran's Day. This immersive 5,000-square-foot exhibit explores life on the home front during one of the most influential and turbulent times in US history and took on issues from war mobilization to the Spanish flu outbreak and struggles for women's suffrage.

MNHS partnered on the exhibit with the National Constitution Center, the National World War I Museum and Memorial, and the Oakland Museum of California.

The documentary *Through the Iron Curtain - From Romania* aired on Twin Cities Public Television on Nov. 5, 2017 and is available to view on tpt.org

New Documentary Explores Immigration Stories from Communist-Era Romania to Minnesota

In October 2017, the Heritage Organization of Romanian Americans in Minnesota, or HORA, celebrated the world premiere of its new documentary, *Through the Iron Curtain-From Romania*, at the American Swedish Institute in Minneapolis. The documentary uses oral histories from Romanian Americans to explore post-World War II life in communist Romania, especially through the lens of immigrants who came to Minnesota.

Under communism and dictator Nicolae Ceausescu, many *Through the Iron Curtain* interviewees described the intense feelings of suspicion that filled Romania. "Everybody was whispering about everyone else," one historian noted in the documentary.

The Romanian government also severely curtailed women's rights in an effort to increase the country's birth rate. Birth control was outlawed, and women were encouraged to have more children or risk imprisonment.

While living in Romania was difficult, leaving the country wasn't easy either. Some citizens escaped across the border while others worked their way through the country's long emigration process.

"People who came here during Communist time, they literally left everything behind," Cleopatra Cabuz said in the film.

Despite struggling with English, finding jobs, and other challenges of being new immigrants, the film explores the vibrant Romanian community that has formed in the Twin Cities. The community works to keep its traditions, including music, dance, and costumes. Two metro Romanian Orthodox churches, St. Mary's and St. Stefan's, serve as community hubs. HORA was founded in 2009 to help share and preserve this history.

The film was supported by a \$42,920 Legacy grant and was produced in partnership with Twin Cities Public Television (TPT). *Through the Iron Curtain* aired on TPT Nov. 5, 2017. It is free to view on TPT.org. HORA previously received Legacy funding in 2014 to produce another documentary about Romanian immigration to the Twin Cities in the early 1900s, *A Thousand Dollars and Back*.

The exterior of the Pipestone Indian Boarding School Superintendent's Residence, built in 1907

Pipestone Indian Shrine Association Works to Preserve One of Minnesota's Most Endangered Sites

Closed since the 1950s, the Pipestone Indian School was once part of a system of government boarding schools that worked to assimilate Native American children to European-American standards. The school once had more than 60 buildings with up to 400 students.

Today the school superintendent's residence, built of locally quarried Sioux quartzite in 1907, is one of the only remaining buildings documenting the Pipestone Indian School. In addition, very few buildings associated with the 16 schools in Minnesota's Indian boarding school system still exist. The building was added to the National Register of Historic Places in 1993.

The superintendent's residence is now on Minnesota West Community and Technical College's Pipestone campus and has shuffled through various owners over the years. In 2006, the Preservation Alliance of

Minnesota listed the residence as one of Minnesota's 10 most endangered historic sites. In 2013, the nonprofit Pipestone Indian Shrine Association (PISA), located at Pipestone National Monument, took over the property and is working to restore and preserve it.

In 2014, PISA received a \$38,000 Legacy grant to hire a qualified architect to create a workplan to preserve and stabilize the residence's exterior. Final design and construction documents were funded by a \$10,000 Legacy grant in 2016. The building has sat vacant since 1983 and has several high-priority preservation needs, including replacing the roof.

PISA's long-term goal is to reuse the residence as an interpretive center or museum to share the complex and painful history of the Pipestone Indian School and its students, as well as the school's historical links with the nearby Pipestone National Monument.

CY17 REPORT OF MINNESOTA HISTORICAL AND CULTURAL HERITAGE GRANTS

A Historic Resources Advisory Committee (HRAC) meeting at the Minnesota History Center

The ACHF-funded Minnesota Historical and Cultural Heritage Grants Program provides a valuable opportunity for nonprofit and educational organizations, government units, and tribal organizations across Minnesota to preserve and share the state’s history and cultural heritage.

The Minnesota Historical Society administers the Minnesota Historical and Cultural Heritage Grants Program and awards grants based on the recommendations of the Historic Resources Advisory Committee.

Through a competitive process, 2,224 grants totalling nearly \$45 million have been awarded to 812 organizations in every county in Minnesota since the Legacy Amendment was passed in 2008.

Since the last report was published in January 2017, 227 grants, totaling more than \$4.5 million have been awarded in 60 counties to 171 organizations across Minnesota.

Minnesota Historical and Cultural Heritage Grants are available in two tiers:

- Small or Structured Grants of \$10,000 or less
- Large Grants of more than \$10,000

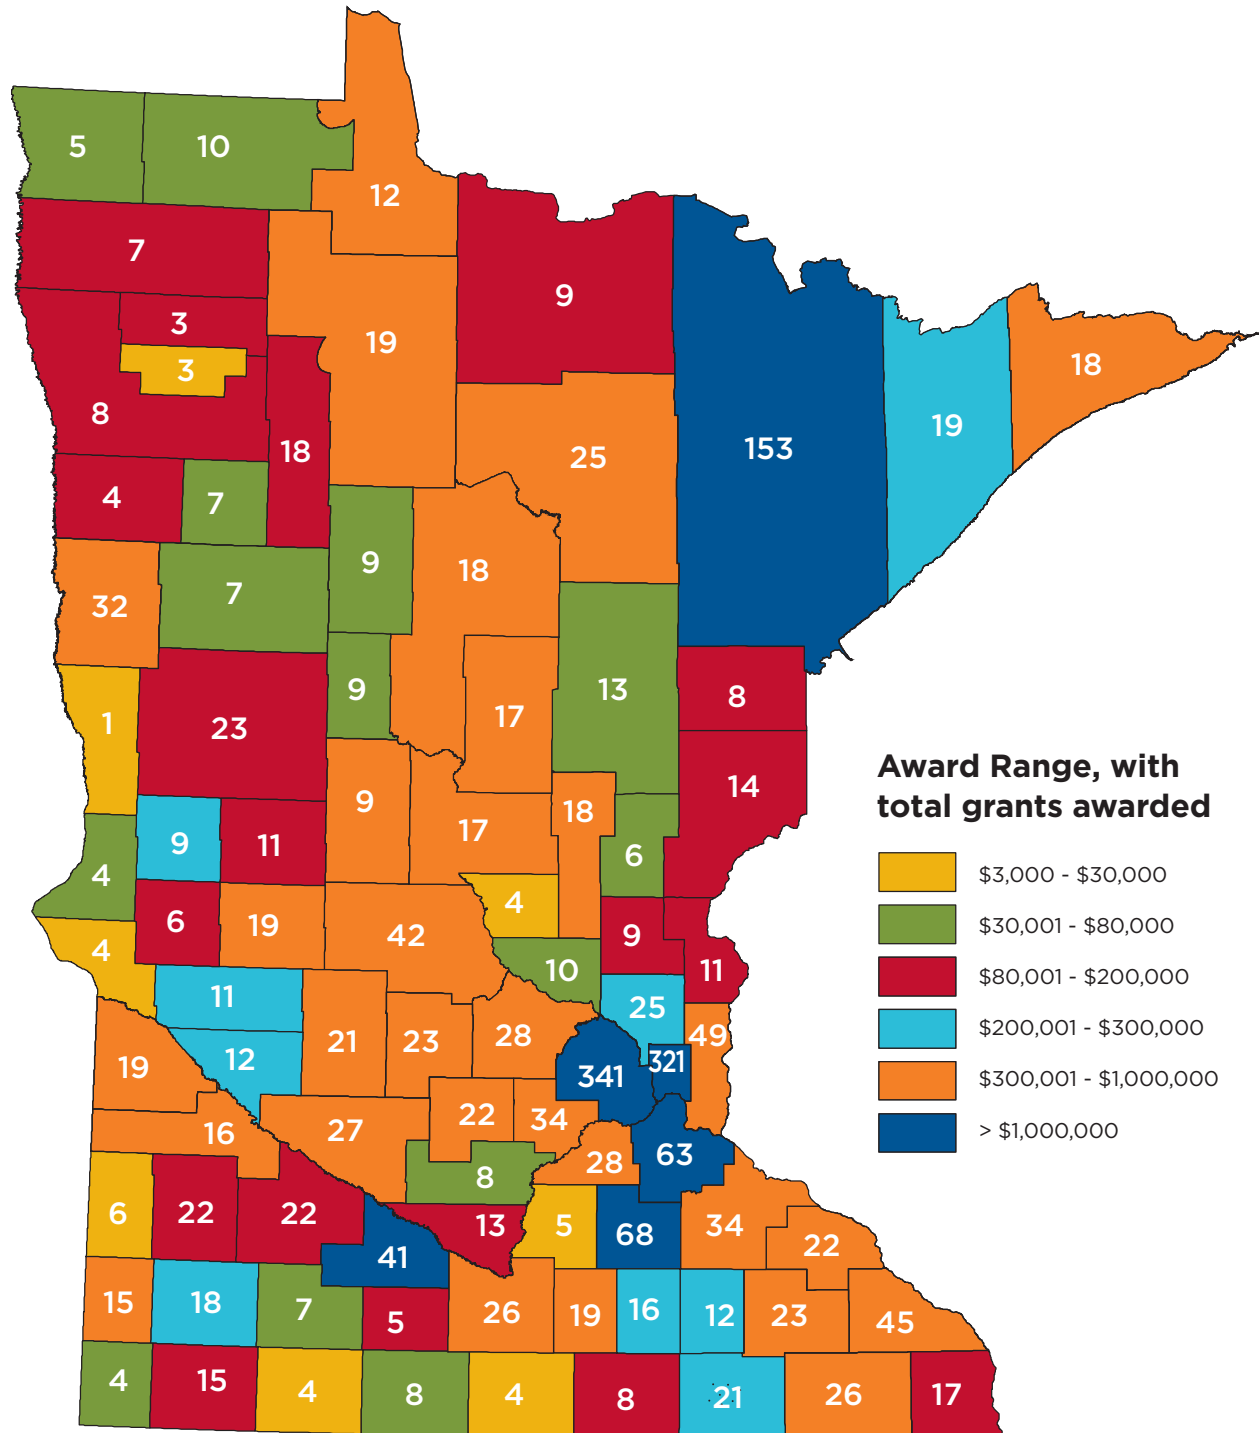

Ten percent of grants funding is used to administer and ensure the success of the Minnesota Historical and Cultural Heritage Grants Program. The funds allow MNHS to lead statewide grant-writing workshops and webinars, assist applicants with technical information critical to submitting a successful grant application, and support recipients throughout the life of their project. To assure transparency and measurable outcomes of projects, grants staff members conduct onsite visits required by the Minnesota Office of Grants Management and, throughout the grant life cycle, monitor the progress of all awarded grants.

All grants awarded between Jan. 1 and Dec. 31, 2017 are listed on pages 13-29. As more grants are awarded throughout the year, information will be available at legacy.mnhs.org.

FY18-19 Appropriations Language: Statewide Historic and Cultural Grants \$4,500,000 the first year and \$6,500,000 the second year are for history programs and projects operated or conducted by or through local, county, regional, or other historical or cultural organizations or for activities to preserve significant historic and cultural resources. Funds are to be distributed through a competitive grant process. The Minnesota Historical Society shall administer these funds using established grant mechanisms, with assistance from the advisory committee created under Laws 2009, chapter 172, article 4, section 2, subdivision 4, paragraph (b), item (ii).

Minnesota Historical and Cultural Heritage Grants July 1, 2009-Dec. 31, 2017

Senate District 67, House District 67B

**Minnesota Department of Natural Resources
Translation of the Hvoslef Natural History
Phenology Journals 1881-1897, \$40,000**

To hire a qualified professional to translate 19th-century phenology journals from southern Minnesota. *St. Paul, Ramsey County*

FY18 REPORT OF STATEWIDE HISTORY PROGRAMS

The ACHF supports several statewide educational initiatives, including the Legacy Field Trip Support Fund, which provides financial assistance to schools to offset the high cost of field trip transportation

The Minnesota Historical Society has been preserving, sharing, and connecting people with history since 1849. With support from the Legacy Amendment's Arts and Cultural Heritage Fund, the people of Minnesota are investing \$11 million this biennium in history programs that will bring the power of history to Minnesotans of all ages in all corners of the state.

FY18-19 Appropriations Language—Programs: \$4,055,000 the first year and \$6,945,000 the second year are for programs and purposes related to the historical and cultural heritage of the state of Minnesota conducted by the Minnesota Historical Society.

ARCHAEOLOGY

Lower Sioux Agency Archaeological Collections, \$69,500

In FY18, MNHS's archaeology department received Legacy funding to begin inventorying, creating digital catalog records, and rehousing artifacts excavated at Lower Sioux Agency historic site. These collections were generated in the 1970s, and catalog records exist almost entirely in paper form. A review of collections records shows there are roughly 160 boxes of artifacts from Lower Sioux in collections storage, and an estimated 75,000+ individual artifacts. Members of the Lower Sioux Indian Community, which manages the Lower Sioux Agency historic site, have been introduced to the project and are invited to review artifacts and collections records, with the possible outcome of creating new exhibits at the site.

ENTERPRISE DEVELOPMENT

Multimedia Unit, \$97,113

Legacy funds support two full-time multimedia positions, along with materials and services to produce video, audio, and other multimedia content for education, interpretive, and exhibit programs across MNHS. The content is also used to inform the public about these MNHS programs.

Program Evaluation, \$188,889

MNHS continues to build a culture of evaluation. An evaluation manager leads institutional evaluation capacity building and provides technical assistance and support to staff who evaluate ACHF projects and programs. An evaluation associate facilitates evaluation efforts, specifically in K-12 education and public programs. Three interns and numerous volunteers continue to support evaluation work. Three trainings were held to prepare volunteers to do visitor intercept interviews and teach staff focus group and observation methodology. Seventy-seven unique projects or teams engaged in some evaluation project overall.

2017 highlights include:

- Facilitated 19 Team-Based Inquiry (TBI) events, with 145 participants, to more systematically engage in data-informed decision-making
- Created six new logic models, with 34 participants. Eight existing logic models were reviewed with 29 participants
- Created 61 new program surveys and reviewed 27 more surveys
- Conducted 82 public program audience surveys
- Completed seven observation checklists
- Wrote four evaluation reports and assisted with two grant proposals
- Created five interactive dashboards in Tableau, an online data visualization tool. Dashboards are available for primary audiences, including K-12, family, adult and young adult audiences, as well as employee engagement and volunteers

EXHIBITS

The 1968 Exhibit, \$320,600

The 1968 Exhibit was developed as a national traveling exhibit, funded by the National Endowment for the Humanities and created in partnership with the Atlanta History Center, the Chicago History Museum, and the Oakland Museum of California. The exhibit first opened at the Minnesota History Center in 2011 and traveled to eight additional venues across the United States.

The exhibit returned to the Minnesota History Center in December 2017 for a final 13-month run to mark the 50th anniversary of this pivotal year in U.S. history in 2018. *The 1968 Exhibit* is organized in 12 sections, corresponding to the months of the year, with each section focusing on a particular theme or event, for example: January is devoted to the Vietnam War, the month of the Tet Offensive; April reflects on Martin Luther King Jr. who was assassinated that month; August explores the violent events around the Democratic National Convention. Two additional "lounges" focus on popular culture and design of 1968. This exhibit is on display through January 2019.

AMVETS Post #5: Photographs by Xavier Tavera, \$122,300

This exhibit features 29 portraits of Mexican and Mexican American military veterans, all members of AMVETS Post #5 in St. Paul, donated to MNHS collections by photographer Xavier Tavera. Accompanying oral history excerpts, presented in English and Spanish, tell of their return from war and reintegration into St. Paul's West Side community. This exhibit is on display at the Minnesota History Center through April 22, 2018.

The First Avenue Exhibit, \$168,000

This exhibit is planned to open at the Minnesota History Center in April 2019. First Avenue made Minnesota hip. For four decades, Minneapolis's legendary music venue has been a launching pad for local talent like Prince, The Replacements, Hüsker Dü, and a place national touring acts loved to play. First Avenue connected different genres and brought in diverse audiences. It booked African American rock, soul, and hip-hop artists unable to get gigs at other downtown venues and fostered a growing punk, hardcore, and indie rock scene. It was at the center of a network of local producers, record labels, record stores, zines, music journalists, and other people and places that made up the Minneapolis music scene of the 1980s and beyond. Whether you're a fan, an employee, a musician, First Avenue is a place that changes lives.

Long-Range Exhibit Planning, \$37,800

Building on MNHS's established reputation for creating innovative, immersive historical exhibits, staff will embark on a multiyear planning project that will identify current and future exhibition needs, assess current exhibits throughout the MNHS network, and develop an 8-to-10-year plan to align the institution's core exhibits and changing exhibits with the institution's strategic goals and values.

Renewing What They Gave Us: Native American Artist in Residence, \$140,100

This exhibit showcases original beadwork, birchbark, and textiles made by five Native artists who participated in MNHS's Native American Artists-in-Residence Program. These newly acquired collections objects are displayed along with historic examples from MNHS collections that artists studied during their residencies. This exhibit is on display at the Minnesota History Center through April 22, 2018.

Somalis + Minnesota, \$288,700

A partnership with the Somali Museum of Minnesota, this exhibit will help Minnesotans understand this recent immigrant community who began arriving several decades ago. The exhibit will showcase cultural traditions and material culture of Somalia, cover the immigrant experience coming to Minnesota, and will review the accomplishments and cultural adaptations Somali people have made since making Minnesota home. The exhibit will open June 23, 2018.

EXPERIENCE DEVELOPMENT

Development of Minnesota Curriculum, \$137,421

MNHS is developing new curricula, programs, and resources to engage students in learning about Minnesota history. In FY17, the Forests, Fields and the Falls website launched in a new format, making it more accessible to teachers and students using any platform or device. A new portal focused on World War I stories and materials also launched to help students access MNHS collections and content.

In addition, Education staff and Oliver Kelley Farm staff created new curriculum on agriculture, history, and STEM for K-12 teachers and students. Four new programs launched at the Kelley Farm in May 2017. New teacher supplements include a primary source packet series designed to engage students on the topics of Native American termination and relocation and American experiences during World War I.

Exhibits Programming, \$50,306

MNHS exhibits are supported by diverse programming that complements exhibit content while extending the rich stories of Minnesota's history. MNHS staff are able to partner with community organizations on innovative programs for visitors of all ages. In FY18, program participants explored a variety of inclusive topics at theater programs in the gallery, several large-scale family days, opening day artist and curator talks, film screenings, lectures, discussions, and new community outreach programs. Staff are able to work with diverse community partners, presenters, and artists on these exhibit-related programs; some of the strongest partners this fiscal year are from the Native American, Latino, veteran, African American, and Somali communities.

History Live! Interactive Video Conferencing, \$193,072

History Live! is an award-winning educational program, delivered to over 8,500 students a year. The program uses the Internet to deliver live, interactive educational programming to students across Minnesota, the United States, and the world. The project brings MNHS resources to students who are unable to visit historic sites in person.

The History Live! program also works with MNHS's K-12 programs and services team to develop webinars for teachers across the state, allowing wider access to MNHS resources. In FY18, 20 live and recorded webinars are scheduled for teachers to support professional development.

Legacy Field Trip Support Fund, \$105,385

The Legacy Field Trip Support Fund helped 22,606 Minnesota students in 284 schools experience field trips at Minnesota historic sites and museums statewide in FY17. The high cost of transportation can prohibit many Minnesota teachers from taking their students on field trips. The Legacy Field Trip Support Fund offsets transportation costs to all MNHS historic sites and museums. Eligible schools (those with 25 percent or more students enrolled in the Federal Free and Reduced Lunch Program) are reimbursed \$4 per student, allowing more students access to field trips. The program is expected to serve a similar number in FY18.

Lifelong Learning, \$25,500

MNHS is engaged in cultivating meaningful relationships with adult audiences as lifelong learners, members, donors, volunteers, and supporters. In FY18, these funds support the House of Memories: US Project, a mobile app to help professional and family caregivers draw stories and conversations out of those with memory loss, using images and content from MNHS collections. A training program for caregivers will also be developed to help them create meaningful connections through conversation. The free mobile app and in-person training programs are expected to be available in fall 2018. This project is a partnership with the National Museums Liverpool.

Play the Past: The Field Trip for the 21st-Century Learner, \$138,044

This groundbreaking project allows students on field trips to interact with Minnesota History Center exhibits using mobile devices. It offers a new model for school field trips, using mobile and web technologies to capitalize on the natural behaviors and learning styles of today's students. Play the Past demonstrates how museums can use technology to create self-directed, personalized, responsive field trip experiences that deepen students' connection to history while honing their critical thinking and problem-solving skills.

In fall 2017, Play the Past expanded into the *Minnesota's Greatest Generation* exhibit at the Minnesota History Center, with support from a National Endowment for the Humanities grant. Students can now explore stories from the Great Depression, World War II, and the baby boom. In FY18, this program will be delivered to an estimated 7,500 students.

FINANCE

Administrative Expenses, \$424,302

MNHS works to minimize administrative costs while adhering to the legislative mandate that costs be "directly related to and necessary for a specific appropriation." In order to implement its Arts and Cultural Heritage Fund programs, these funds support delivery of Legacy statewide programs.

INCLUSION AND COMMUNITY ENGAGEMENT

Diversity Outreach, \$25,000

MNHS continues to recruit diverse students from the Twin Cities for programs that engage them in understanding how public organizations present historical narratives. Internally, the Department of Inclusion and Community Engagement supports the diversity and inclusion efforts of other MNHS departments, such as the access advisory group and training for the Native American Graves Protection and Repatriation Act officer. Staff also attend cultural competence learning opportunities.

HERITAGE PRESERVATION

Minnesota History Whatever Conference, \$9,500

The Minnesota History Whatever Conference is a new statewide gathering of Minnesota's broader history community. It serves academics, public historians, museum professionals, archaeologists, preservationists, and anyone who seeks to use the power of history and its emphasis on critical thinking to make Minnesota a better place. The event was held in May 2017 at the American Swedish Institute in Minneapolis. More than 140 people registered and participated in 17 sessions. It is estimated that there were 40 different history disciplines represented by the attendees.

LIBRARY & COLLECTIONS

Native American Outreach, \$50,000

The MNHS permanent collection includes more than 6,500 objects related to Native American culture and history. MNHS takes seriously its responsibility to provide stewardship of these items, in accordance with federal law (Native American Graves Protection and Repatriation Act) and the institution's own policies and practices (Culturally Sensitive Objects Policy). In FY17, the Native American collections proved again to be an incredibly active collecting area as staff hosted artists, researchers, Native community members, and organizations. MNHS also lent works to important exhibits at museums nationally and internationally including the Minneapolis Institute of Art and the Royal Ontario Museum.

At the History Center and MNHS sites, as well as in Native communities, MNHS continued to engage colleagues and community members through: participating in regional and national conferences, like the International Conference of Indigenous Archives, Libraries, and Museums; supporting and partnering with Indigenous nonprofit organizations, including Two Rivers Gallery at the Minneapolis American Indian Center; and facilitating tours for artists, researchers, students, educators, and interested community members.

In FY17, MNHS partnered with the Mandan, Hidatsa, and Arikara Nation (MHA Nation) by facilitating a visit of elders, students, faculty, and the tribal college president to study the Gilbert Wilson collections at the Minnesota History Center. Collections staff also

engaged the MHA Nation at large by accompanying important collections items to their reservation in North Dakota for programming related to Native agriculture. Additionally, MNHS will provide ongoing guidance as they continue to plan for a future museum and cultural center.

The Native American Artist-in-Residence program continues to be successful, and in September 2017, an exhibit entitled *Renewing What They Gave Us: Native American Artists in Residence*, featuring the work of the first five resident artists and MNHS historic collections, opened at the Minnesota History Center. Staff continue to plan for additional collections-based events, broadening MNHS's reach through the artist-in-residence program into Native communities in Minnesota and beyond.

Minnesota State Capitol Art, \$80,000

After months of public discussion, MNHS made the decision to relocate two controversial paintings—that had originally hung in the Governor's Reception Room—to a different location of the building. The paintings, *Father Hennepin Discovering the Falls of Saint Anthony* and *The Treaty of Traverse des Sioux*, were relocated to the Capitol's third floor Cass Gilbert Room with new interpretation in July 2017.

MNHS staff interviewed a wide range of people about their perspectives on the paintings, and these interviews became interpretive panels to help visitors understand the reason the paintings were moved and to foster communication about complex issues surrounding art in public spaces. A third painting previously housed at the Capitol, *Attack on New Ulm*, has been installed in a temporary exhibit in the James J. Hill House's art gallery with a similar interpretive approach through mid-January 2018.

Digitization of Historical Collections, \$133,353

Increasing the public's online access to MNHS's permanent collections remains a top priority. Since the beginning of FY18, 1,020 artifacts have been digitally photographed and cataloged. This included Native American material culture as well as fine art, recent acquisitions, and artifacts related to current events and MNHS initiatives, like the recent *WWI America* exhibit.

For the remainder of FY18, digitization will continue to focus on recently acquired artifacts, Native American artifacts from tribes of the American Southwest, and women's fashion by notable designers.

Digitization of Minnesota's Newspapers, \$125,000

MNHS continues actively preserving and making accessible the newspapers published in the state. In FY18, MNHS is moving into a new phase with digitization of hardcopy backlog and current papers being completed fully in-house using infrastructure established in FY17. The digitized newspapers are available through the Minnesota Digital Newspaper Hub, with microfilm produced from the digital files serving as the long-term preservation format. MNHS abides by copyright laws, and digital copies of newspapers currently in copyright are available to researchers only in the MNHS Library at the Minnesota History Center unless by special agreement with the publisher.

Oral History Projects, \$109,500

MNHS completed seven interviews focused on African American cabin- and resort-owners at Lake Adney in Crow Wing County. Another oral history project documented the stories of Minnesota's Oromo immigrants, an Ethiopian ethnic group, and MNHS worked with the nonprofit Oromo Community of Minnesota on this project. The Oromo project included 12 interviews, eight of which were conducted in the Oromo language and translated to English.

In FY18, MNHS is launching a project around stories of the Vietnam War. Staff will conduct interviews with a wide range of Minnesota natives and immigrants about their experiences during this turbulent time in our history.

Scan-on-Demand Digitization of Archival Collections, \$61,000

MNHS cares for more than 100,000 cubic feet of hard-copy government records and manuscript collections dating from the territorial period to the present. To access the vast majority of these holdings, researchers must currently visit the Minnesota History Center or make other special arrangements. In FY18, MNHS will purchase equipment and hire staff to implement new workflows and processes to support scan-on-demand. Staff will also explore options for better management of and access to the digitized content.

NATIVE AMERICAN INITIATIVES

Native American Initiatives, \$319,500

MNHS's new Native American Initiatives department (NAI) works with Native American constituents on projects pertaining to MNHS, historic sites, and Native American communities. One achievement this year was a partnership agreement with the newly formed Dakota Community Council for the Historic Fort Snelling revitalization project and related sites within the 1805 Treaty boundary. NAI is also currently engaging Native tribes within Minnesota and the region on the future of Grand Mound Historic Site.

This department manages several historic sites within the MNHS network, including Mille Lacs Indian Museum and Trading Post and Jeffer Petroglyphs, and works with the Lower Sioux Indian Community on the management of the Lower Sioux Agency historic site. NAI is also working on a Native American exhibit that will open fall 2019 at the Minnesota History Center.

PUBLIC COMMUNICATIONS

Public Awareness and Communications, \$375,157

MNHS created communications strategies and promotional tactics for Arts and Cultural Heritage Fund (ACHF) history projects, exhibits, programs, and grants. Minnesotans statewide were made aware of ACHF programs through print, broadcast, outdoor, and online communications, all aimed at providing access to history to the state's students and teachers, as well as the general public.

PUBLICATIONS

MNopedia, the Minnesota Encyclopedia, \$213,000

MNopedia is a free, award-winning online encyclopedia of Minnesota, created and managed by the Minnesota Historical Society. New articles are published weekly. This unique resource is written and designed for use by general audiences, as well as teachers and students, and provides easy access to the shared history of all Minnesotans.

In 2017, MNopedia grew to include essays on African American history, Indian American history, Somali American history, and articles on topics of importance to Greater Minnesota and the state's diverse communities. Nearly 100 new articles were published on the website in 2017, and since the project launch in 2011, the website has attracted 723,868 unique visitors and more than 2 million page views.

SUSTAINABILITY AND FACILITIES PROJECTS

Historic Fort Snelling Planning, \$145,000

Historic Fort Snelling is a MNHS historic site and the state's first National Historic Landmark. A major project at the site prioritizes the adaptive reuse of two historic buildings concentrating on opportunities for public use, education, engagement, and reflection. This project supports an MNHS strategic priority and speaks to the organizational mission by returning historic facilities to public use while fostering new dialogues. A master plan for the buildings' reuse was completed in 2015, and predesign was completed in June 2016. Design and programming work are currently ongoing. ACHF funds help support a project manager position, a project lead position, and the head of programming for new site experiences.

Sustainability of Programs & Facilities, \$123,250

MNHS continues to strive for environmental, economic, and social sustainability in its sustainability program. To pinpoint opportunities for ongoing progress, the sustainability program will harmonize a broader range of institutional needs and objectives. The program will establish integrated, continuous, electronic reporting that unites environmental, social, and economic risk analysis. This reporting will be used to further reduce our environmental impact and improve the sustainability of our operations as a whole.

VOLUNTEER SERVICES

College Internship Program, \$124,000

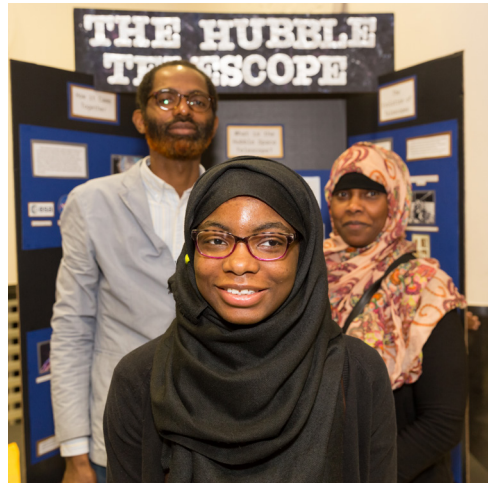

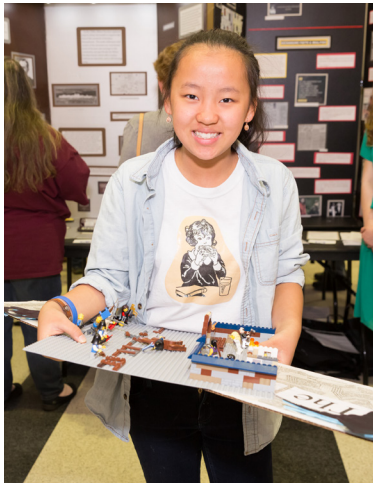

College student interns are placed in various departments and sites across MNHS. Staff use targeted recruitment efforts with the goal of attracting talented students from Minnesota's diverse communities. During their semester-long internships, students have the opportunity to work alongside museum and public history professionals to enhance their skills and apply their knowledge in a professional environment.

Internship activities also focus on having students engage with MNHS on a deeper level by discussing current public history issues and trends with staff, exploring the impact of absent narratives and sharing intern experiences, and building professional networks. These internships provide college students exposure to the work environment, enabling them to gain more work experience as they apply for professional jobs. In FY17, 94 college interns contributed 12,418 work hours.

Engaging High School Students in Minnesota History through Internships, \$6,400

MNHS strives to attract high school interns from underrepresented communities and expose them to careers in arts and cultural organizations and nonprofits. Legacy funds allow high school interns to develop professional on-the-job experience and learn skills, such as completing an application, attendance, working in teams and increasing communication skills. MNHS staff works to recruit interns within communities of color. MNHS has also reviewed recruitment, onboarding processes, forms, and other procedures to ensure a safe and supportive work environment for interns.

REPORT OF HISTORY PARTNERSHIPS

The ACHF supports National History Day outreach around Minnesota, including undergraduate students mentoring middle and high school History Day students

Funding from the Legacy Amendment's Arts and Cultural Heritage Fund has resulted in partnerships between the Minnesota Historical Society and more than 30 organizations.

It also supports the Heritage Partnership Program that works to build capacity of two or more independent organizations to preserve and enhance access to Minnesota's history and cultural resources, by supporting the creation and development of sustainable, history-based partnerships throughout the state.

FY18-19 Appropriations Language—History Partnerships: \$2,000,000 each year are for partnerships involving multiple organizations, which may include the Minnesota Historical Society, to preserve and enhance access to Minnesota's history and cultural heritage in all regions of the state.

FY18 Partnerships with the Minnesota Historical Society

EXPERIENCE DEVELOPMENT

Educational Achievement, \$55,349

Partners: Northland Community Schools, Remer; Washington Technology Magnet School, St. Paul; Brooklyn Center High School, Brooklyn Center

The Educational Achievement initiative allows MNHS to create partnerships with three school districts—one rural, one suburban, and one urban—and evaluate how a variety of educational programs measurably improve student achievement across multiple grade levels over multiple years. Partnership schools receive funding to enrich their history instruction for students in grades 6-12, and schools also provide significant matching funding to further enrich educational opportunities for their students.

Over the next five years, MNHS will continue to study the impact of the *Northern Lights* sixth grade social studies textbook, National History Day in Minnesota, and other classroom resources on student learning and engagement. Each school also participates in joint field trips to MNHS sites and museums, including overnight stays. In FY17, partnership activities included summer enrichment programs, internships, and job shadowing to address summer learning loss.

This partnership gives rural, suburban and urban students the chance to expand their knowledge of Minnesota and American history and to engage in applied and place-based learning opportunities. MNHS educators use the partnership schools to test materials and programs that can then be applied to other schools around the state.

Education Outreach for National History Day, \$201,011

Partners: Minnesota State Colleges and Universities, University of Minnesota, Minneapolis Public Schools, Saint Paul Public Schools, Associated Colleges of the Twin Cities

This partnership program helps extend National History Day's reach in Minnesota. MNHS staff coordinated school services with an emphasis on support for students from diverse backgrounds. Higher education partnerships help build college readiness skills for middle and high school students and strengthen the mentoring skills of Minnesota

college students. Undergraduate students from the University of Minnesota, Associated Colleges of the Twin Cities, and Minnesota State Colleges and Universities train to become History Day mentors and work with History Day students at inner city and rural schools.

These partnerships have established a national model for creating “campus to classroom” connections where undergraduate students support classroom teachers by advising History Day students with topic selection, research, and project development. These academic skills make students more college-ready, and the relationships with mentors increase student aspirations for higher education.

Education Outreach Partnership, \$65,734

Partners: Minneapolis Public Schools, St. Cloud State University, Minnesota State University Moorhead, University of Minnesota, Augsburg University

This project is designed to strengthen existing partnerships and create new opportunities for MNHS to deliver transformative educational experiences to students. Partnership dollars were used to leverage matching dollars from Minneapolis Public Schools to increase their commitment to contract with MNHS for educational programs, such as History Day. St. Cloud State University and Minnesota State University Moorhead also provided matching funds for partnerships that enrich US history instruction with experiences at historic sites and museums. Seven undergraduate students in St. Cloud and Moorhead received paid internships and provided History Day mentoring support to area schools.

MNHS also expanded its summer enrichment programs by partnering with the Minnesota Institute for Talented Youth for two summer History Day courses, creating a new campus immersion program at Augsburg University, and sustaining two campus immersion experiences for middle school students at the University of Minnesota, in partnership with the university's Athletic Department. The highly successful Summer History Immersion Program served two cohorts of high school students with in-depth academic and college immersion experiences, in partnership with the University of Minnesota.

State Fair Programming, \$40,093

Partner: The Minnesota State Fair Foundation

MNHS and the Minnesota State Fair Foundation increased awareness and knowledge of Minnesota history by providing quality programming for visitors to the Great Minnesota Get-Together. In 2017, two new stops were added to the Minnesota State Fair History Walking Tour brochure, and inclusivity was a top project goal. About 37,000 brochures were distributed during the run of the fair.

History-on-a-Schtick, an original, vaudevillian romp through Minnesota's past with sing-alongs, trivia, and prizes, had two daily performances in 2017. MNHS worked with Minnesota playwright Beth Gilleland and a group of actors to create the production, which filled the 200-seat venue each day.

EXTERNAL RELATIONS

Legacy Strategic Agenda, \$70,000

Partners: Augsburg University, Sherburne History Center, Goodhue County Historical Society, Stearns History Museum, St. Cloud State University, Otter Tail County Historical Society, University of Minnesota, Southwest Minnesota State University, Red Lake Nation College, Rice County Historical Society, Minnesota Museum of American Art, Morrison County Historical Society

This statewide project builds on the achievements realized during past years of Legacy funding to guide future work. The LSA is a strategic document and a resource for statewide history communities over the next four years. The LSA has identified four strategic priorities that will be measured and sustained at the community level: history education, Legacy grants, partnerships, and unfamiliar stories.

FINANCE

Administrative Costs, \$121,544

MNHS works to minimize administrative costs while adhering to the legislative mandate that costs be "directly related to and necessary for a specific appropriation." In order to implement its Arts and Cultural Heritage Fund programs, these funds support delivery of Legacy partnership programs.

HERITAGE PRESERVATION

Building Capacity of History Professionals, \$30,000

Partner: Minnesota Alliance of Local History Museums (MALHM)

MALHM and MNHS collaborate to develop the capacity of history professionals across the state to better serve local communities. This partnership distributed high-quality best practices to all corners of the state through an improved periodic publication and a conference. This year's conference in Walker experienced a 28 percent increase in participation and a third track of sessions was added.

Historic Preservation Corps, \$400,000

Partner: Northern Bedrock Historic Preservation Corps

This partnership program trains young adults in historic preservation while addressing the preservation needs of historic structures and landscapes across the state. Northern Bedrock Historic Preservation Corps and MNHS increase the viability of a historic preservation activity by building on a conservation corps model. The partnership's first year focused on building the capacity of the corps through further expansion of service projects, skills training, and networks. The 2017 field season saw a marked increase in capacity with three crews working on sites from Grand Portage to Thief River Falls and Hastings. Corps members put in an estimated 16,000+ hours during the season.

Minnesota Main Street Partnership, \$150,804

Partners: Preservation Alliance of Minnesota (primary), University of Minnesota Extension Center for Community Vitality, University of Minnesota Tourism Center, Minnesota GreenStep Cities, and Minnesota Design Team

Minnesota Main Street, as a member of the Main Street America network, continues to provide the training information and networking tools needed to boost commercial districts in local Main Street communities. The Main Street Four-Point Approach is a downtown revitalization strategy with proven results showing increases in property improvements, new business development, new job creation, and volunteer participation.

This year Mankato-North Mankato joined Faribault, New Ulm, Owatonna, Red Wing, Shakopee, Willmar, and Winona as the eighth designated Minnesota Main Street. Using the Main Street methodology, each of these unique historic towns has seen social and economic vitality return to their downtowns while showcasing outstanding historic structures.

Every year Minnesota Main Street recognizes projects in the Main Street and Network Communities that have exemplified excellent work in the Four-Point Approach. In September 2017 at the Preserve Minnesota Conference in Albert Lea, three designated Main Street communities received 2017 Minnesota Main Street Awards: Red Wing received Best Community Impact Project for their Small Business Revolution campaign; Shakopee was awarded Most Targeted Event for their Rhythm on the Rails concert series; and Winona Main Street Program won Best Volunteer Project for their Big Muddy Brew 'n Que event.

PAM Education, \$110,000

Partners: Preservation Alliance of Minnesota

PAM Education (formerly Cornerstone Academy), the preservation education partnership of the Preservation Alliance of Minnesota and MNHS, launched in 2014. The statewide preservation education program has developed a training series for homeowners, realtors, community members, and professionals in fields that frequently interact with historic buildings and districts. The past year focused on building new audiences using evaluative techniques. The results were 29 classes offered in 20 venues for 278 students. More than 20 expert instructors were a part of the partnership.

INCLUSION AND COMMUNITY ENGAGEMENT

American Indian Museum Fellowship, \$76,946

Partner: Minnesota Indian Affairs Council

Native American undergraduate students from across Minnesota participated in this unique intensive 17-day residential program. The students attended onsite presentations throughout Minnesota and experienced hands-on learning about the museum and archaeology fields and other historical and cultural preservation organizations. Students also learned about various career paths and academic requirements for working in these types of organizations, both on and off reservations, as well as challenges Native communities face related to preserving tribal heritage.

Diversity Outreach, \$176,964

Partners: multiple (see below)

MNHS is working to strengthen its presence and visibility as a community resource to Minnesota's diverse communities by supporting a strategic tabling and sponsorship effort at 12 community events, such as Rondo Days, Twin Cities Jazz Festival, and the Cultural Heritage and Social Action Summit. In addition, funds supported cosponsoring and hosting diverse events, including Twin Cities Black Film Festival and Somali Independence Day at the Minnesota History Center.

MNHS is also partnering with the Minnesota Council on Disability and VSA Minnesota to better understand the needs and interests of people living with physical and cognitive disabilities. An advisory group has been formed to provide feedback and direction. In addition, MNHS is playing a key role in creating an access consortium with colleagues from Twin Cities arts and cultural organizations to learn, share, advise, and coordinate with each other about this work.

Neighborhood Leadership Program, \$85,081

Partner: Amherst H. Wilder Foundation

MNHS and the Wilder Foundation worked together to provide greater access and awareness of MNHS resources to St. Paul neighborhoods through the Wilder Foundation's Neighborhood Leadership Program (NLP). NLP is a six-month training program that has been supported by the Wilder Foundation for the past 20 years with nearly 800 program alumni. The purpose of NLP is to help existing and emerging leaders take action to improve their community. This year 29 people were accepted to the NLP program.

Through visits to the Minnesota History Center, participants learned about the diverse history of St. Paul and explored resources available through MNHS. They learned how understanding the history of their community can improve communications with community members, help frame community issues, and set goals and strategies to create change. Program participants, many of whom had never visited, made new connections to the Minnesota History Center. More importantly, the partnership allowed MNHS to engage with the greater community in new ways.

History Museum Fellows Program, \$158,146

Partner: University of Minnesota, Associated Colleges of the Twin Cities (ACTC)

Through this partnership, University of Minnesota and ACTC students from diverse backgrounds explore the museum field and issues related to diversity and museums during a semester-long course, followed by a paid internship. The program also engages students in discussions on the under-representation of communities of color and Native American nations in historical organizations and public history graduate programs. The class is offered in the fall for ACTC students and as a spring semester course at the University of Minnesota. Students held internships at MNHS, the Somali Museum of Minnesota, Minneapolis Institute of Art, East Side Freedom Library, American Swedish Institute, Ramsey County Historical Society, and other organizations.

Teaching Heritage Collaboration, \$70,000

Partner: University of Minnesota

The University of Minnesota and MNHS are collaborating to enhance heritage education across Minnesota. This project engages students in field experiences with the archaeological collections and interpretive programs at Historic Fort Snelling and provides research support for new programs at Oliver Kelley Farm. These projects help build models for collaborative instruction that fosters cultural heritage awareness and protection. These projects also expose students to the breadth of Minnesota's diverse artifacts, sites, stories, and traditions, thus nurturing future professionals who understand the interdisciplinary and collaborative nature of heritage and preservation work. This initiative also works to build better community-institutional relationships and fosters broader public support for cultural heritage awareness and protection.

Youth Partnerships, \$77,758

Partners: Comunidades Latinas Unidas En Servicio (CLUES) and St. Paul College for Summer Technology Workshop; Two Rivers Gallery and Minneapolis Central Library for Mazinaakizige: American Indian Teen Photography Project; and East Side Freedom Library and Two Rivers Gallery for Teen Action Group

MNHS partners with diverse organizations to create in-depth, meaningful learning experiences for young people that help them develop career and life skills. The Mazinaakizige: American Indian Teen Photography Project welcomed six Native American high school students who investigated historic and contemporary images of Native people, learned digital photography, and created a gallery show to interpret the theme "Forward." The show was on view at Two Rivers Gallery from December 15 to January 22, 2018, with a closing reception on January 19, 2018. The gallery donated program and exhibition space, announcement postcards, and frames for the prints. The student show will be displayed at the Minneapolis Central Library starting April 11, 2018 and at the Mille Lacs Indian Museum & Trading Post in September 2018.

The Summer Technology Workshop highlights career readiness through a community-identified assessment of technology skills needs. For two and a half weeks, students explored the Google suite of tools and web design through immersive opportunities held at the Minnesota History Center and Saint Paul College. Students explored Latino representation in the historical record and identified

topics for future in-depth research. They created 10-minute documentaries and websites.

The Teen Action Group works with 10 diverse high school students from around the metro area to increase awareness of museum resources and historical research. In 2017, students worked with collections staff to select objects and artifacts to tell an intersectional civil rights narrative from the 1960s to the present in an exhibit at the Gale Family Library. In 2018, students will collaborate with community partners, East Side Freedom Library and Two Rivers Gallery, to create intergenerational dialogue through historical objects and an activity and learn how public engagement works with museums.

In the 2016-2017 school year, the Wariyaa: Somali Youth in Minnesota program met at Mill City Museum every Saturday. This program encouraged nine Somali high school students to explore their identities as Minnesotans through food, storytelling, and cultural resources. Using oral histories, videos, historical research, and career-readiness curriculum, students compiled research into a cookbook, which will be published by MNHS Press in May 2018.

CY17 Heritage Partnership Program

Archaeology Alpha Sites Program, Phase II, \$70,542

Partners: Scott County Historical Society, Anoka County Historical Society, and Dakota County Historical Society

The first phase of this program identified several alpha sites in each of the partner counties. Alpha sites are past cultural locations that have been documented from written accounts, area maps, or oral tradition, but have never been formally investigated to see if they still contain intact cultural deposits. Using the phase one research, a phase two, 12-month program will provide in-depth alpha site archaeological research, planning, and outreach services to three partner organizations. Based on preliminary review of State Historic Preservation Office files, Anoka County has 25 alpha sites, Dakota county has 40, and Scott County has 43.

Alpha sites have previously fallen outside state and federal development corridors, and as development has surged in the last 50 years, these locations have been lost at an alarming rate. This partnership project will establish a common base of knowledge around these sites while also creating tools for programming, curating, and otherwise working with these archaeological sites. This partnership approach will save time and effort while reducing costs.

This program's objectives are:

- Using Phase I archaeological literature review, provide each participating organization expanded research on each known alpha site's location; the sites' relationship to already developed historic contexts; and recommendations/ranking based on location probability for cultural material retention.
- Consult with each historical society to identify 10 site locations from each county for the development of public programs oriented toward site documentation.
- Complete a series of public programs to document 30 alpha site locations. Documentation will follow standard Phase I archaeological survey methods as laid out by the Minnesota Office of the State Archaeologist and may include: GPS, photography, mapping, limited artifact collection, surface survey, shovel testing, and ground penetrating radar.

- For locations where cultural materials are encountered, a Minnesota Archaeological Site Form will be completed and sent to the Minnesota Office of the State Archaeologist for site numeration.
- For locations where no cultural materials were encountered or where there is no evidence of the alpha site, an update to the existing alpha site form will be provided to the State Historic Preservation Office.
- If cultural materials are collected, each historical society will ensure adequate documentation and curation protocols are followed.
- Provide a final capstone program to present the project results to the constituents of each partner organization and the wider public.
- Present findings to Minnesota archaeology, museum, and local history fields via appropriate local conferences.

Collection Management Software Pilot Program, \$124,510

Official Partners: Minnesota Alliance of Local History Museums, Pope County Historical Society, Minnesota Indian Affairs Council in partnership with Hamline University, Stevens County Historical Society, Renville County Historical Society, and Isanti County Historical Society

Supporting Organizations: Stearns History Museum, Morrison County Historical Society, Minnesota Digital Library, and Murray County Historical Society

This partnership had its start in April 2014 when a task force of Minnesota-based collection managers and other museum personnel from various historical societies began to meet, understanding that by working together, the task force could influence the future of collections management systems. The software used by most Minnesota history museums runs on an obsolete database, which puts collection data at risk. While there has not been a critical failure, the partners deemed the subject important enough to start to look at what comes next.

The task force determined that a free, open-source, web-based collections management system would be the best solution. The partnership will select software and web hosting vendors through an RFP process. The chosen vendor will provide an application that will allow for future expansion and work for the needs of museums and repositories across the state. This new software will be piloted using the collections data of five institutions:

Pope County Historical Society, Minnesota Indian Affairs Council/Hamline University, Stevens County Historical Society, Renville County Historical Society, and Isanti County Historical Society.

As the voice of the Minnesota local history community, the Minnesota Alliance of Local History Museums (MAHLM) will be the coordinating organization for the pilot program. The eventual goal is that, upon the successful completion of the pilot program, the software will be made available statewide with MAHLM providing a central home for the community. MAHLM will also manage hosting services for the software; manage and maintain community resources, such as working groups and a mailing list; coordinate bug tracking and feature requests from members; and allow members to leverage shared economies to protect each organization's investment in the CMS. A strong member base will ensure the software developed today continues to evolve into the future.

By sharing a collections management system, organizations will save significantly on web hosting, training, and updates. The eventual goal is that not only will individual institutions be able to share their collection online with the public, but that these Minnesota organizations will be able to share their collection information with each other through a nonpublic, shared database.

Disaster Preparedness Response and Recovery, \$11,123

Partners: McLeod County Historic Partnership: McLeod County Historical Society, Glencoe Historic Preservation Society, and Historic Hutchinson

Staff of the member organizations of the McLeod County Historic Partnership will receive training and resources to better care for collections, especially in emergency situations. Members will train in proper disaster response procedures, create response plans that take advantage of the assistance they can provide one another, and create a shared cache of supplies necessary to respond to the most common types of disasters. The McLeod County Historic Partnership estimates a net cost savings of over \$10,000 between all groups, thanks to sharing this training and disaster preparedness supplies.

By working together to draft response plans, the partnership members will each create more comprehensive and cohesive plans, share ideas and insights, and will be able to work more symbiotically in emergencies by having innate understanding of each organization's plans.

Meeker County Heritage Tourism Assessment and Planning, \$18,500

Partners: Meeker Development Corporation, Meeker County Historical Society, and Dassel Area Historical Society

Three Meeker County organizations will form a partnership to identify and assess heritage tourism sites, activities, and events in Meeker County and develop a strategic plan to coordinate, promote, and improve access to these sites and activities. This strategic plan will then serve as a tool to begin promoting Meeker County's historic resources under the umbrella of heritage tourism.

This collaboration will enhance efficiency for all three organizations in collecting and sharing this rich history by reducing individual time spent by each institution and avoiding unnecessary duplication of efforts. This coordination will also lead to expanding awareness of each organization's resources and strengthen their reputations as sources of information about this important part of Minnesota's past.

The Minnesota Computer History Partnership, \$99,000

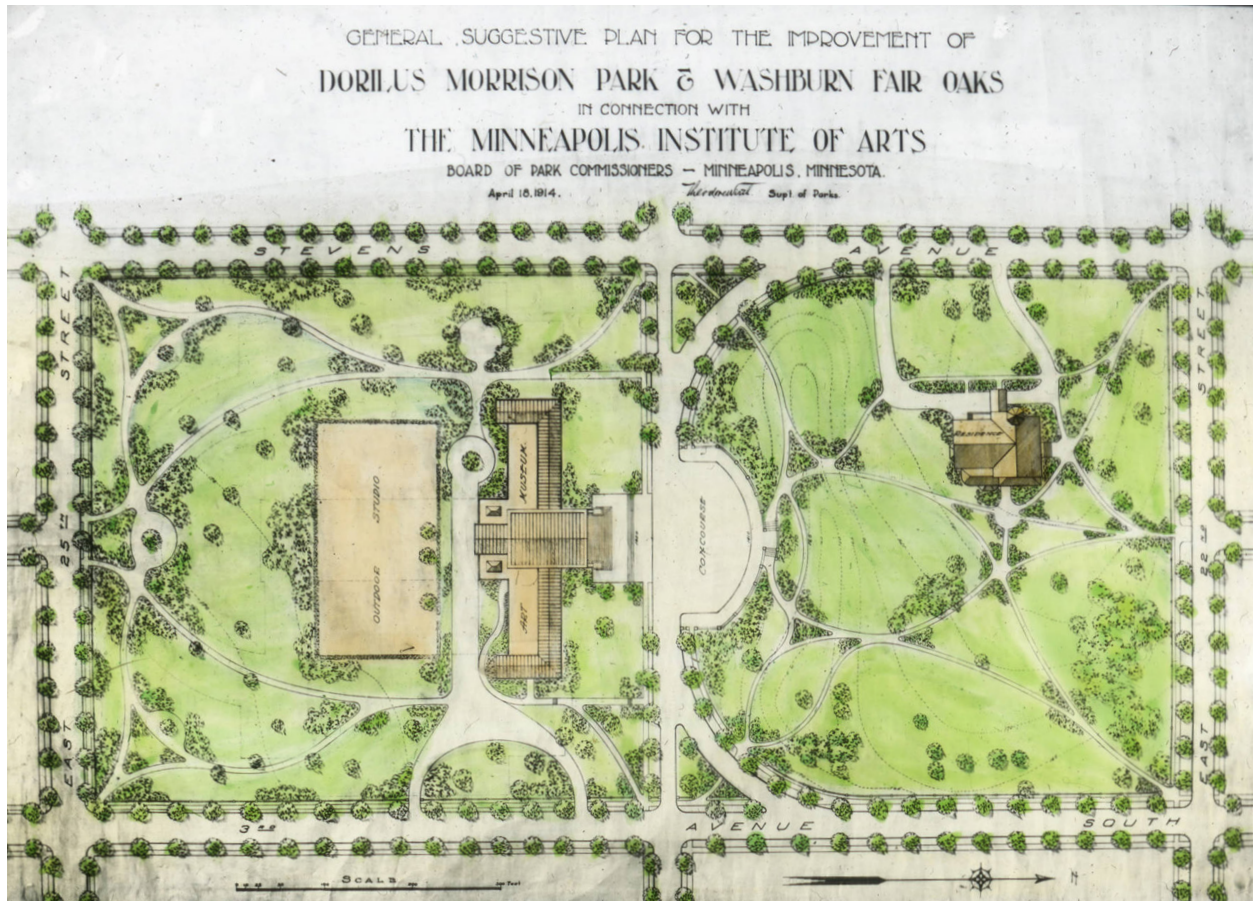

Partners: Minnesota High Tech Foundation, Charles Babbage Institute at the University of Minnesota, and Dakota County Historical Society

Three nonprofit organizations with a shared interest in the little-known history of Minnesota's role in the development of the modern computer industry have come together to share their resources in a long-term partnership, which will serve scholars, educators, students, and the public. The goal is to work together to make these stories known to the public through digital media, continue to document stories from those who were involved or have archival resources, and share this history with new generations of Minnesotans.

The partners have agreed to three key objectives:

- Researching and collecting information on the available historical resources, artifacts, and data, now scattered among six primary organizations and a cluster of business archives in Rochester and the Twin Cities
- Compiling that information into a single, shared online database and index of resources on the web that will preserve and provide access to the resources
- Creating a unique set of video interviews to capture stories from those who experienced this history firsthand. These videos will be shared and used among the partners in both transcript and video form as resources for public education and future research

REPORT OF OTHER STATEWIDE INITIATIVES

A lantern slide of a 1914 Minneapolis Park Board plan for the improvement of Dorilus Morrison Park and Washburn Fair Oaks, found in the Minnesota Digital Library

In addition to grants, programs and partnerships, the Minnesota Legislature has directed funding from the Legacy Amendment's Arts and Cultural Heritage Fund to support initiatives for history, including the Statewide Survey of Historical and Archaeological Sites, Minnesota Digital Library and Additional Projects. These initiatives support statewide efforts to preserve and share history for future generations. Each initiative is called out with its own appropriations language.

FY18 Statewide Survey of Historical and Archaeological Sites

A field crew works on an archaeological survey of Dakota County. *Photo courtesy of the Science Museum of Minnesota*

The Legislature created the Statewide Survey of Historic and Archaeological Sites to provide opportunities to expand our understanding of historic and archaeological sites statewide.

Projects are defined by an oversight board and are conducted through competitive-bid contracts. So far three major topics have been addressed by the survey: identification and protection of sensitive historic and archaeological resources; geographic surveys of poorly-known areas of Minnesota; and thematic studies of poorly-understood historic contexts.

To date, 30 projects have been conducted, which have expanded the number of documented historic and archaeological sites in Minnesota, increased our understanding of where such sites are likely to be located, and illuminated cultural traditions, lifeways, and technologies dating to the earliest human occupations of the state.

FY18-19 Appropriations Language: \$400,000 the first year and \$400,000 the second year are for a contract or contracts to be awarded on a competitive basis to conduct statewide surveys of Minnesota's sites of historical, archaeological, and cultural significance. Results of the surveys must be published in a searchable form and available to the public on a cost-free basis. The Minnesota Historical Society, the Office of the State Archaeologist, and the Indian Affairs Council shall each appoint a representative to an oversight board to select contractors and direct the conduct of the surveys. The oversight board shall consult with the Departments of Transportation and Natural Resources.

Archaeological Survey of Wadena County

This project focuses on creating a better understanding of the archaeology of Wadena County, which has a very small number of recorded archaeological sites. Extensive field survey targeted at identifying sites will expand understanding of the prehistory of this area.

Archaeological Survey of Watonwan County

Watonwan County has a small number of identified archaeological sites, and not much survey work has been conducted in the county. This project will focus on recording more sites and creating a better understanding of prehistory in the county.

Dating Minnesota's Prehistory: A Study of the Freshwater Reservoir Effect

This project builds on an earlier effort to gain more understanding of how "old carbon" in the environment affects radiocarbon dates. This study now has become part of an international effort to better understand this effect in glaciated parts of the world.

Reports for completed projects are posted on the Office of the State Archaeologist's website at mn.gov/admin/archaeologist/

FY18 Minnesota Digital Library

EXCELSIOR MAY GO DRY BUT THERE DOESN'T SEEM HOPE FOR THE REST OF THE LAKE.

Editorial cartoons by Charles Lewis "Bart" Bartholomew that appeared in the Minneapolis Journal, contributed to the Minnesota Digital Library by Gustavus Adolphus College

The Minnesota Digital Library (MDL) is a statewide, multi-institutional collaboration that supports discovery, education, and personal enrichment through digitization of and access to the rich historical resources of the state's public and academic libraries, archives, museums, and historical societies while also preserving these resources for future generations.

MDL partnered with:

- 190+ organizations through Minnesota Reflections, a premier searchable, online collection of primary source materials of more than 53,000 photos, maps, journals, letters, works of art and more
- In FY18, MDL will continue to digitize and make accessible material from across the state both on its own website, as well as through the website of the Digital Public Library of America

FY18-19 Appropriations Language: \$300,000 the first year and \$300,000 the second year are for a digital library project to preserve, digitize, and share Minnesota images, documents, and historical materials. The Minnesota Historical Society shall cooperate with the Minitex interlibrary loan system and shall jointly share this appropriation for these purposes.

Additional Projects

Andrew Peterson emigrated from Sweden in 1850 and his historic Waconia farmstead is now managed by Carver County Historical Society

In 2017, the Minnesota Legislature appropriated ACHF funds for these additional projects in the FY2018-19 biennium. The appropriation language reads:

\$80,000 each year is for a grant to the board of directors of the Carver County Historical Society to restore the historic **Andrew Peterson farm** in Waconia.

\$80,000 each year is for a grant to the city of Woodbury to work in collaboration with the Woodbury Barn Heritage Commission to restore the **Miller Barn** and historical programming at the Miller Barn in Woodbury.

\$100,000 the first year is to restore the stained glass in the historic **Fort Snelling Memorial Chapel** in collaboration with the Department of Natural Resources. The historical society may work in collaboration with the Fort Snelling Memorial Chapel Foundation.

\$250,000 the first year is for a grant to the Fairmont Opera House to restore and renovate the historic **Fairmont Opera House**.

\$50,000 the first year is for a grant to the Litchfield Opera House to restore and renovate the historic **Litchfield Opera House**.
